National Volunteer Week at NACS

On the occasion of the 14th edition of National Volunteer Week, in week 11-17 May 2015, at the National Agency of Civil Servants will take place an action to collect donations from the employees of the institution.

The activity supports the project carried out by the General Direction of Social Assistance and Child Protection (DGASPC) sector 6, *SocialXChange.ro charity shop*, to help certain social categories (elderly, large families or with low budget).

These donations will be taken over by representatives of the DGASPC sector 6 to be transferred to underprivileged social categories included in the project.

NACS joins, therefore, the organizations, volunteers and institutions which celebrate in this period this national, supporting the principle that volunteering is an essential support for community.
