NACS supports the integration of young people with visual impairment in public administration

The collaboration between NACS and the Romanian Foundation for Visually Impaired Persons (FRPHV) “Friends of the Blind People” (FRPHV), started in 2014, aimed at conducting activities on enhancing professional competences and adaptability of young people with visual impairment to the conditions and demands of professional fields for which they received education.

So far, 12 visually impaired persons (5 students, 2 university graduates, 5 post-secondary school graduates) were placed in public institutions and authorities to carry out voluntary activities, job shadow, internship and traineeship in massage, special psychotherapy, public relations and human resources. To this end, cooperation agreements were signed with the following institutions: the General Directorate for Social Assistance of Bucharest, the General Directorate for Social Assistance and Child Protection District 6, the General Directorate for Social Assistance and Child Protection District 5 and the National Employment Agency.

The involvement of youth in current activities of institutions generated positive impressions on both sides, ensuring the success of this initiative, which aims to be an example to be followed.
