NACS – participation to final conference besides FNSA

Between **22 and 24 October 2014**, experts from **The National Agency of Civil Servants (NACS)** attended at **Madrid (Spain)** to the **final conference** of the project **”Information and consultation - the base for responsible and active participation of employees in public sector”**, implemented by the National Federation of Trade Unions in Administration, in partnership with NACS and unions from Bulgaria, Republic of Serbia, Montenegro, Spain, Lithuania, Malta and Poland.

The conference discussions focused especially on the evaluation of the project results and the possibilities of informing and consulting employees and opportunities for action and cooperation. Were debated **topics** like: the impact of information and consultation on public services sector, national best practices on informing and consulting employees, methods of improving social dialogue in public services.

As **conclusions** of the event, but also starting points for new projects there were: the need to organize meetings between trade unions and public authorities regions or regional / activity sectors levels to enhance discussions on specific issues, to develop new projects for ensuring the sustainability of this project and beyond in accord with socio-economic realities. Also, NACS aims at identifying of new financing lines for developing a new project.
