### PRESS RELEASE

#### NACS – consultations with trade unions

Today, 23 April 2015, starting with 10:00 AM at the National Agency of Public Servants (NACS) is held a meeting with the representatives of The National Union of Civil Servants (SNFP) from Romania.

The meeting is part of a series of consultations NACS has scheduled in the context of the development, at the Agency level, of documents for public policies, namely **The Strategy in Civil Service 2015-2020** and **The Strategy on professional development and training 2015-2020**.

On this occasion analyses will be made on the evolution of civil service and the reconsideration of some institutional competences regarding the management of the staff in public administration, which will constitute the base of documents for public policies the Agency will develop in 2015.

The National Alliance of Budgetary Unions SED LEX and The National Federation of Administrative Unions (FNSA) were also invited to consultations.

In March, NACS has discussed with academic representatives, as well.

**“I thank all our partners which have responded to our invitation to support us in the development of these documents with major impact on the civil service. Therefore, the administration reform will become the result of a real, constructive dialogue, a synthesis of the professionalism of experts in public administration”** was the message of József Birtalan, NACS president.
