((Launching Diversity Charters in Slovenia, Croatia and Romania), project financed by the European Commission, DG Justice and Consumers and implemented by the Company for Training and Employment of People with Disabilities from Slovenia, with partners from private and public sector from Romania, Slovenia and Croatia.

The National Agency of Civil Servants is one of the Romanian partners, together with the association Assistance and Programs for Sustainable Development – Agenda 21 and the foundation Forum for International Communications.

The discussions from the meeting were pragmatic, focusing on the analysis of the Diversity Charter draft proposed by the project team members, but they also materialized in an opportunity to bring together the members of the Board.

“The added value of this project is mainly given by the initiative to bring to the same table valuable ideas and experiences provided by representatives of the private and public sector. I have the conviction that this activity involves you personally and professionally, your experience being an important support in the effort to capitalize on the principles of the Diversity Charter in Romania”,
Cristian Bitea, president of NACS, stressed at the opening of the event.

We remind you that the project will take place over two years (2017-2018) and it has as objective to promote and stimulate the implementation and the respect of the principle of non-discrimination and human rights by setting up and developing Diversity Charters in Slovenia, Romania and Croatia for the private and public sector. The total value of the project is 346.835,98 Euros.
