*A new internship for students from the Republic of Moldova*

Monday, 13 February 2017, the National Agency of Civil Servants (NACS) received the visit of 5 master's degree students of the Academy of Public Administration of the Republic of Moldova (AAP), accompanied by the director of the Department of professional development.

The visit comes in the context of an internship in public institutions and authorities in Romania, NACS being the institution that coordinates this internship.

The action, initiated last year as an activity under the Cooperation Agreement on Civil Service and Civil Servants Management, takes place between 13-24 February, 2017.

The 5 master's degree students, with specializations in the theory and practice of public administration, international relations, constitutional law, administrative law and management, will undertake their practice in NACS, as well as the General Secretariat of the Government, the Ministry of Regional Development, Public Administration and European Funds, the Ministry of Justice and in the Prefect's Institution of the Municipality of Bucharest.

Present at the meeting with the students from the Republic of Moldova, NACS's Vice-president, Cristian Bitea, wished them good luck, insisting on the importance of a practical and theoretical training in building a successful career in public administration. *"To become a good practitioner, a man of administration needs to have both skills and competences, with others words to know both theory and practice"*, says NACS's Vice-president.
